

**FOR IMMEDIATE RELEASE:**

## **Wilwood Disc Brakes Announces New 4 PSI Gold Residual Pressure Valve**

**Camarillo, CA • February 2019**

Wilwood is excited to introduce a new 4 PSI-rated Residual Pressure Valve (RPV) to their line of pressure and flow controls. The 4 PSI Gold valve adds an option between the existing 2 PSI Blue and 10 PSI Red valves on disc brake systems where extreme shock loads, hard vibration, and suspension component flex can contribute to excessive caliper piston retraction and pad knock back. The 4 PSI Gold valve uses the same 1/8"-27 NPT female thread in the aluminum body as the 2 PSI and 10 PSI models. Individual valves are available under part number 260-15365 or packaged with a pair of 3/8"-24 IF adapter fittings for use with a 3/16" brake line under part number 260-15366.

MSRP starts at \$19.38.
