

FOR IMMEDIATE PRESS RELEASE
Wilwood's TC6R 16" Big Brake Front Kits for 2010 Silverado

Camarillo, CA October 1, 2009

TC6R calipers are purpose built to provide unsurpassed braking capacity on trucks and SUV's using 20" and larger wheels and tires. Combining the high clamping efficiency of the TC6R caliper with 16" diameter directional vane rotors and high friction, low noise, low dust BP-10 compound Smart Pads. TC6R ([140-8992](tel:1408992)) kits provide the braking power necessary to control the higher rotating weight of ultra-sized wheels and tires, especially with high GVW vehicles and vehicles used for towing. TC6R kits are engineered application to be fully compatible with the OE master cylinder output and retain full function of the ABS system.
