

FOR IMMEDIATE RELEASE:

## Wilwood Disc Brakes Releases Billet Brackets for Aluminum Remote Master Cylinder Reservoirs

**Camarillo, CA • February 2023**

Wilwood's aluminum master cylinder reservoirs are a staple of the racing and hot rod communities, and these newly available billet mounting brackets make them easier to use. Available in single, double, or triple reservoir styles, the brackets are made of lightweight billet aluminum and drilled to reduce weight further. The aluminum reservoirs hold 4 oz. of fluid, plumbed to remote brake or clutch master cylinders.

The new single, dual, and triple brackets work with the standard Wilwood smooth-sided Billet Aluminum Reservoirs or the new ribbed, Lightweight Reservoir. Choose from plain billet aluminum or hard anodized gray to match or contrast with the reservoirs. Strong and light, these brackets mount securely with two Allen head bolts.

MSRP: starts at \$57.07
