

FOR IMMEDIATE PRESS RELEASE

New Wilwood Street & Track Brake Kit For Pinto / Mustang II Disc Brake Spindles

Camarillo, CA June 3,2010

Hot rods and race machines headed for extreme duty or track day events will be competition ready with this new [front brake kit](#) from Wilwood. Big stopping power from six piston Forged Superlite calipers, high cooling efficiency from GT series directional rotors, and lightweight mounting through aluminum hats on super-strong forged billet hubs, are configured for use on the 1974-80 Pinto and 1974-78 Mustang II disc brake spindles. BP-10 compound "Smart Pads" provide quiet engagement and low dust performance on the street, with fast response, superb friction, and high resistance to fade for those hot braking sessions at the track. The entire package fits neatly inside a variety of 15" or larger rims. Bolt-on caliper mounts, new wheel bearings, seals, premium grade hardware, and alignment shims are all included for an easy installation.
