

FOR IMMEDIATE RELEASE:

Wilwood is pleased to announce a new road race brake kit for 1997-2013 Corvettes

Camarillo, CA • September, 2014

Wilwood's championship winning road race brake systems for 1997-2013 Corvettes have been upgraded and fortified with the newly released Aerolite Quick-Silver 6R/ST racing calipers. The Aerolite calipers feature an all new, highly efficient, weight saving forged body design. It provides an overall increase in caliper stiffness and resistance to deflection and body separation under high load, and the high pressures generated by the OE power brake system. The new calipers also use thicker 20mm pads that reduce the heat saturation rate and increase the interval time between pad service cycles. Improved pedal feel, immediate and confident response, and longer pad cycle times will keep you and your Corvette on track longer and racing to the front of the pack. M.S.R.P. begins at \$3,051.99.

Wilwood has been expertly designing and manufacturing high-performance disc brakes in the USA since 1977. Engineered and rigorously tested for the track, Wilwood brakes provide unsurpassed quality and performance with sleek, lightweight designs. Wilwood has dominated the motorsports arena for decades, making their street market brakes among the most technologically advanced around.
