

**FOR IMMEDIATE RELEASE:**

## **Wilwood Announces new Right Hand Mounting Bracket Kit for their Combination Proportioning Valve**

**Camarillo, CA • July, 2015**

Wilwood Disc Brakes now provides total flexibility in mount positioning of the Wilwood Combination Proportioning Valve with the introduction of a new right hand mounting bracket, available in a mounting bracket kit ([P/N 220-15047](#)) or bundled with the Combination Proportioning Valve ([P/N 260-15048](#)). The new kits add to the product line that includes the incredibly popular left hand mounting bracket kit.

The right hand mounting bracket kit includes precision bent stainless steel fluid tubes with pre-installed stainless steel tube nuts for a simple bolt-on installation between the Wilwood Combination Proportioning Valve and the Wilwood Tandem Master Cylinder. Stainless steel button head fasteners attach the proportioning valve to the bracket.

M.S.R.P. starts at \$37.74 for the right hand bracket kit and \$115.50 for the right hand bracket kit with the Combination Proportioning Valve.
