## **WILWOOD ENGINEERING VOLUNTARILY RECALLS SELECT MASTER CYLINDERS**

### **IMPORTANT SAFETY RECALL**

CAMARILLO, CA – Wilwood Engineering, Inc. of Camarillo, California has notified NHTSA of a defect in certain 7/8” bore Tandem Master Cylinders (with integral reservoir) and its intent to voluntarily rebuild or repair the affected parts. Wilwood® customers will be notified of this recall starting this month.

The voluntary recall is limited to the following part numbers:

[260-9439](#)

[260-12900](#)

[261-13271](#) (with proportioning valve)

[261-13272](#) (with proportioning valve)

These aftermarket master cylinders and kits are offered in different finishes indicated by a suffix (plain, black (“BK”) and ball burnished (“P”).

The part numbers above were distributed by Wilwood between January 2, 2006 and October 31, 2016. It is critical that affected customers contact Wilwood® if they are using a recalled certain 7/8” bore Tandem Master Cylinders (with integral reservoir) or know of someone who may have one of the recalled parts.
