

FOR IMMEDIATE RELEASE:

Wilwood Disc Brakes Releases Upgraded Replacement Caliper for Classic Air-Cooled VWs

Camarillo, CA • February 2023

Many classic air-cooled Volkswagens now have two to three times their original power and need improved braking to match. Wilwood's DynaPro Single opposed-piston caliper was engineered as a direct upgrade for 1966-79 VW Beetles and other air-cooled classics.

The billet aluminum two piston caliper was designed using finite element analysis to maintain structural integrity and provide greater clamping force by reducing deflection. DPS-VW directly replaces ATE calipers used with 278mm (10.95") diameter rotors on Type-1 Beetle and Super Beetle. Available in Type-III Hard Anodized or with a gloss red or black powder coat finish.

MSRP starts at \$169.77
