FORD MUSTANG
2015-2017
**XT6R CALIPER • CARBON-
CERAMIC ROTOR BRAKE KITS**

Xtreme Torque XT6R front big brake kits for the 2015-2017 Ford Mustang combine the massive braking capacity of forged XT6R six piston calipers with lightweight 15.00" carbon-ceramic rotors to create the ultimate supercar-styled brake system.

KIT FEATURES

- XT6R forged aluminum six piston calipers with internal bore seals and stainless steel pistons
- Available in black or red powder coat and 22 other color options
- Unique WCCB rotor construction provides unsurpassed structural and thermal stability
- Full-dynamic rotor mounting with integrated anti-rattle bobbins in lightweight forged aluminum hats
- PCM compound pads developed specifically for WCCB rotors give fast response, long wear and no fade regardless of temperature
- Fully compatible with factory master cylinder and ABS controls
- Radial mount brackets attach the XT6R calipers to the OE Mustang spindles at the stock location for a secure and precise bolt-on fit
- Includes all hardware necessary to attach brakes to the spindles
- Braided stainless steel flexlines are required for the installation and must be ordered separately

Note: Check www.wilwood.com for complete year/make/model application data and specific wheel clearance requirements.
