

**FOR IMMEDIATE RELEASE:
Wilwood's New Pro Matrix Pad & Rotor Upgrade Kits for the Mustang Cobra**

Camarillo, CA October 1, 2007

Wilwood's newest [Pro Matrix Pad and Rotor kits](#) have been designed to enhance the braking performance on 1994 to 2004 Mustang Cobra while utilizing the OE wheels and calipers. The vented two-piece iron rotor design of these front and rear kits utilizes CNC billet aluminum hats. Rotor choices include the cross-drilled and slotted SRP rotor for a high tech look on the street and the GT rotor with an asymmetrical slot pattern for high heat applications such as track day sessions and serious competition events. Low dust, low noise PolyMatrix "Q" brake pads complete the package to shorten stopping distances, improve handling and eliminate dressed-up overworked stock components.

Wilwood High Performance Brake Kits are loaded with cutting edge technology built on years of domination in world motorsports and engineered for easy bolt-on installation. Big brake styling that meets the high performance demands of today's tire, wheel and suspension technology.
