

FOR IMMEDIATE PRESS RELEASE:

Wilwood's New Front Big Brake Kits for Audi and Volkswagen

Camarillo, CA December 21, 2011

Wilwood Engineering's newest [bolt-on brake kits](#) have been designed to enhance the braking of the Audi TT(99-04), Volkswagen's Beetle1.8T (98-04), Golf 1.8T & VR6 (99-04) and Jetta IV, 1.8T & VR6 (99-04). These kits feature billet aluminum DynaPro four piston calipers with the latest Radial Mount design for a strong, compact package. SRS stainless steel wear plates are standard to eliminate bridge wear to the caliper caused by pad gouging. The kit includes 12.19" diameter vented iron rotors in a choice of smooth face or a drilled and slotted pattern. The rotor is a two piece design utilizing billet aluminum hats. Low dust, low noise PolyMatrix "Q" brake pads complete the package to shorten stopping distances, improve handling and eliminate dressed-up overworked stock components.

Wilwood High Performance Brake Kits are loaded with cutting edge technology built on years of domination in world motorsports and engineered for easy bolt-on installation. Big brake styling that meets the high performance demands of today's tire, wheel and suspension technology.
