

C5/C6 CORVETTE • 1997-2013 FRONT & REAR DIRECT MOUNT CALIPERS

SLC56
Front Caliper

New for Spring 2015!

Update the styling and performance on your C5 or base model C6, and all other Corvette suspension based hot-rods, with these two new fixed mount, direct fit, four piston calipers.

DPC56
Rear Caliper

Caliper Features

- Mounts in stock location for use with original equipment 12.8" front and 12.0" rear rotors
- Forged aluminum body with 5 bridge bolts, stainless steel pistons, and internal bore seals
- Uses SL type 7416 front brake pads and DPLP type 4812 rears
- Calibrated for full compatibility with OE master cylinder output, ABS, and all electronic controls
- Improved brake response and balanced pad loading over OE floating mount caliper design
- High gloss red or black powder coat finish, and all the high-tech features built into every Wilwood performance caliper
