RACING wilwood

BP-35
NEW 2024
RACE COMPOUND

BP-35 HIGH-PERFORMANCE BRAKE PADS

Wilwood's new **BP-35** high-performance compound has been formulated to provide a great linear feel with a smooth response and excellent release in high-temperature use for iron and steel rotors on circle track and road racing applications. Developed for racers seeking a responsive pad and pedal throughout the entire temperature range and for cars with ABS.

- HIGH FRICTION
- INCREASING TORQUE CONTROL WITH HIGHER TEMPERATURE

APPLICATIONS:

- Off-Road racing
- Road course
- Pavement oval
- Dirt Late Model
- Open Wheel Modified / Stock Car
- Track cars with ABS

KEY FEATURES:

- High friction, good low, medium response that increases with rotor temp
- Linear feeling pad with smooth response and excellent release characteristics
- Low-medium pad wear
- Predictable, consistent pedal feel
- For use with iron or steel rotors
