

Tactical Xtreme **TX6** Big Brake Kits **FORD F-250/F-350** Front & Rear **2023-UP** 4x4

Wilwood's **TX6** big brake kits are designed to fit Ford HD trucks using most 20" or larger wheels. Upgrade the OE cast iron calipers and smaller rotors to Wilwood's larger rotors and net-forged **Tactical Xtreme** six piston calipers using a **Direct-Mount** to the factory spindle in the front and bracket mount in the rear, for more consistent braking performance and improved pedal feel. *(Dust shield modification details included).*

Drawing from motorsports and military expertise, these brake kits provide increased thermal capacity to inspire confidence in high-demand applications, including towing, hauling, and commercial use.

KIT FEATURES:

- Front kit bolts on directly to factory spindles
- Compatible with the factory master cylinder, ABS and all electronic controls
- Provides greater brake torque and increased thermal capacity, and fits behind most 20" and larger wheels

CALIPERS: TX6

- Stress-flow forged aluminum **Tactical Xtreme** calipers have six differential bore pistons for balanced engagement and reinforced end bridges to reduce deflection
- Calipers available in gloss black or red powder coat, or 24 additional color options (additional charges apply)

ROTORS: GTB Slotted

- 15.00" x 1.50" front, 15.50" x 1.38" rear, premium iron alloy rotors for heavy duty use
- **GTB** slotted faces with 48 internal vanes for better thermal cooling
- Complete **E-coating** applied to resist corrosion inside and out

BRAKE PADS: BP-Q

- **BP-Q** ceramic-based, dual-sport brake pad for everyday street or performance driving (additional compounds available)

INSTALLATION PARTS:

- Stainless steel Flexline kits and premium-grade hardware included
