BIG BRAKE KITS

Big Brake Kits 2024 CAN-AM SxS MAVERICK R

Wilwood brings high-performance brake kits to the UTV market, which is producing faster, more powerful machines than ever before. Approaching five decades of experience, Wilwood has the engineering and manufacturing expertise to produce highly effective brake systems and components for the new generation 6-lug Can-Am, Maverick R.

Front and rear matched kits use radial-mount **Dynapro-UTV** four piston calipers and larger dynamically mounted floating rotors that reduce piston knockback, improve thermal capacity, and are game-changers for enthusiasts and competitive racers. **Note:** a modification to the front control arm steering stop is necessary. Refer to the wheel clearance diagram for a fitment check prior to purchase.

6-LUG CAN-AM MAV R

DESIGNED · TESTED USA MANUFACTURED

KIT FEATURES:

- A four piston caliper with an FEA (finite element analysis) body design for increased strength and better resistance to deflection
- **Lug-Drive** technology floats the rotor for decreased knockback and removes thermally generated stress, eliminating distortion
- Fully compatible with factory master cylinder, brake lines, and pedals

CALIPER: NDPR-UTV

- **Narrow Dynapro UTV Radial Mount** calipers combine pure race technology in a strong, sleek profile used in a broad range of rally and off-road applications
- Performance kit calipers come in gloss red and black powder coat, with a large variety of other color options available (additional charges may apply)
- Race-spec kit features calipers with a **Type III Hard Anodized** finish

ROTOR: STEEL, DRILLED or PLAIN FACE

- **Lug-Drive**, dynamically mounted 11.60" x 0.25" steel rotors reduce knockback and thermal distortion
- Performance kit rotors are available in plain face or drilled; Race-spec kits include plain face rotors

BRAKE PADS:

- Performance front and rear kits ship with **BP-20** compound, while Race-spec front and rear kits include a more aggressive **BP-28** pad (other compounds available)

INSTALLATION PARTS:

- All premium-grade hardware included
