FRONT & REAR BIG BRAKE KITS

SKYLINE R32 GT-R 1989-94 300ZX 1990-96 BIG BRAKE KITS FRONT & REAR

Wilwood has designed high-performance brake kits for the popular JDM Nissan Skyline R32 chassis, including the iconic GT-R, with fitment extending to the US version of the 300ZX.

Big brake kits are now available in two rotor sizes for the front with options for Wilwood's esteemed six piston **Superlite** or **Aerolite** calipers, and a bias-matched four piston Superlite caliper for the rear.

KIT FEATURES:

- Powerhouse caliper options with modern FEA body design for increased strength and better resistance to deflection providing improved pedal feel
- Fully compatible with OE ABS, electronic controls, and master cylinder

CALIPERS: AERO6R, FNSSL

- **Aerolite 6R**, six piston front, forged aluminum caliper features a stiffened center bridge
- **Forged Narrow Superlite 6R**, six piston front, and **4R** four piston rear aluminum calipers have exceptional strength with reduced weight
- Calipers available in gloss black or red powder coat, or many additional color options (additional charges apply)

ROTOR: GTB Slotted, or SRP Drilled & Slotted

- Front 12.88" or 14.00" x 1.25" wide (327.2mm or 355.6mm x 31.8mm), performance-grade iron alloy with 48 curved vanes for efficient cooling
- Rear 13.50" x .81" wide (342.9mm x 20.6mm), performance-grade iron alloy with 36 vanes for efficient cooling
- Black E-coat protection comes standard with **GTB** slotted or **SRP** drilled and slotted faces

BRAKE PADS: BP-10, BP-20 (other compounds available)

- **BP-10** pads are included in kits with **SRP** drilled and slotted rotors providing a smooth and consistent response with long wear for street performance
- **BP-20** pads come in kits with **GTB** slotted rotors providing more friction and higher performance for street, autocross, and track day use

INSTALLATION PARTS:

- All premium-grade hardware included; Flexlines available separately by YMM
