

Aero6-DM “Direct-Mount” Brake Kits

✓ 2024-25 Toyota Tacoma

Wilwood's **Aero6-DM** direct-mounted caliper brake kits are designed to fit 2024-25 Toyota Tacoma with 17" or larger wheels. Upgrade your fixed-mount, cast-iron four piston calipers and stock rotors to Wilwood's direct-mount, net-forged six piston calipers and premium iron alloy one-piece rotors to improve performance and pedal feel.

Designed to fit under most factory and aftermarket wheels 17" and larger, providing better thermal capability for high-demand driving, and consistent pedal pressure for towing, commercial applications, spirited driving, and off-road use.

KIT FEATURES:

- Directly mounts to factory spindles and hubs without the need for additional brackets
- Provides increased thermal stability, yet fits behind most 17" and larger wheels

CALIPERS: AERO6-DM

- Stress-flow forged aluminum Aerolite calipers are engineered for direct-mounting with six differential bore pistons for more even clamping force, and closed bridge for minimal deflection
- Compatible with the factory master cylinder, ABS and all electronic controls
- Calipers available in gloss black or red powder coat, or many other color options (additional charges may apply)

ROTORS: GTB Slotted or SRP Drilled & Slotted

- 13.38" x 1.26" premium-grade, long-grain carbon iron alloy 68 vane vented rotors
- Rotors are E-coated, choose GTB slotted, or SRP drilled and slotted

PADS: BP-22 Performance Compound

- New BP-22 ceramic-based, dual-sport for everyday street or performance driving (additional compounds available)

INSTALLATION PARTS:

- Stainless steel Flexlines and premium-grade hardware included

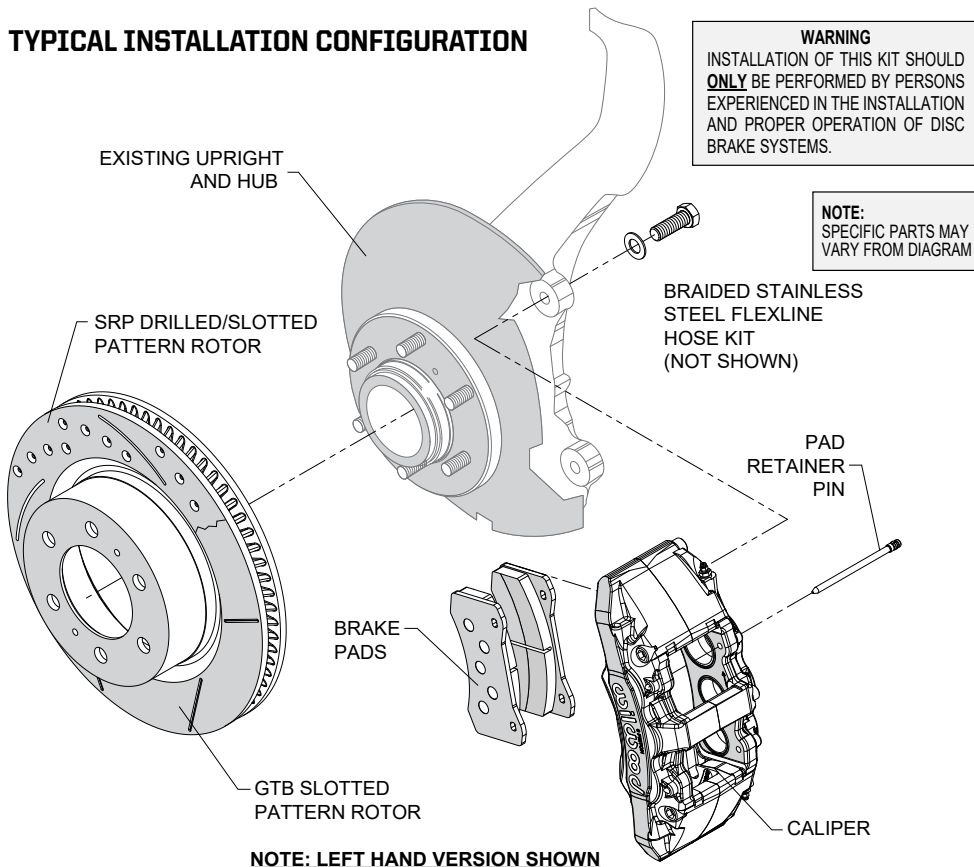

**Aero6-DM Six Piston Brake Kit
13.38" SRP Drilled & Slotted Rotor**

**Aero6-DM Six Piston Brake Kit
13.38" GTB Slotted Rotor**
