

FOR IMMEDIATE RELEASE:

Wilwood Disc Brakes Announces new Billet Aluminum Master Cylinder Fluid Reservoirs

Camarillo, CA • May, 2013

Wilwood Disc Brakes is pleased to announce two new 4 ounce billet aluminum master cylinder fluid reservoirs kits: one for direct mount applications, and the other for remote mounting. Part number [260-12696](#) is the direct mount reservoir kit utilizing an 11/16-20 threaded adapter to attach exclusively to Wilwood's Compact Remote Master Cylinders. Part number [260-12697](#) is the remote mount version that comes complete with billet mounting bracket and 3/8-24 thread -3 AN fluid connector. Stainless steel braided flex lines in numerous lengths are available separately.

For applications that require an electronic brake fluid level sensor, order cap part number 330-12645.

Wilwood aluminum fluid reservoirs are loaded with features and technology built from decades of domination in world motorsports, and the proven reliability of Zero PPM defect quality supply to leading OE manufacturers around the world. These reservoirs not only enhance the appearance of your vehicle, but offer years of care free performance.
