FOR IMMEDIATE RELEASE:

Wilwood Disc Brakes Announces New Front Road Race Kit for the 1988-2000 Honda Civic

Camarillo, CA • June 2017
Wilwood has introduced a road racing brake upgrade kit for the smaller 9.45”/240mm rotor front spindles used on many of the 1988-2000 Honda Civics. This kit is engineered for fitment inside 15.00” wheels, and delivers unyielding performance and long-cycle durability in sustained high-heat competition.

The kit features Dynalite/ST calipers with four Thermlock® pistons and internal damping springs for ultimate heat management and pad retraction control. PolyMatrix H compound race pads clamp over 11.00”/280mm Spec37 alloy GT-72 vane competition rotors that are mounted to the hubs with weight-saving aluminum hats. Caliper brackets, hardware, stainless braided flexlines and a detailed installation guide are included with each kit.

MSRP starts at $1,174.60.
