

**FOR IMMEDIATE RELEASE:**

## **Wilwood Disc Brakes Announces New 15/16” Bore Compact Combination Remote Master Cylinder Kits**

**Camarillo, CA • July 2018**

Wilwood now offers a 15/16” bore size in their line of compact combination master cylinders. This new size provides an additional option for fine-tuning system balance and leverage in the brake hydraulics. Compact master cylinders provide the full stroke and volume output capacity of standard full-size master cylinders in a space-saving, compact design.

Options for conventional flange or side body thru-bolt mounting are available with fluid outlets in either 1/8-27 NPT pipe thread, or 3/8-24 thread for banjo bolts or straight AN unions with crush washers. Complete kits include direct and remote mount fluid reservoir hardware in two different volume capacities.

MSRP starts at \$90.66.
