

FOR IMMEDIATE RELEASE:

Wilwood's new front brake kit for the 1971 through 1976 AMC

Camarillo, CA • May 1, 2011

Wilwood Engineering is proud to introduce a front Pro-Series disc brake kit for 1971 through 1976 AMC's (Disc Spindle). This track-tested light weight kit will not only provide better street performance, it will definitely make a huge improvement over the original brakes on the track where consistency counts.

The kit features forged billet Dynalite calipers that work perfectly with the aluminum hats and 11-inch vented rotors ([P/N 140-11940](#)). The base kit comes with ULHP plain face rotors and black anodized calipers. Optional items include red powder coat calipers and SRP drilled and slotted rotors. The complete kit comes with everything necessary including: calipers, hubs, aluminum rotor adapters, rotors, caliper brackets, BP-10 brake pads, and all necessary hardware.

Wilwood performance brake kits are loaded with cutting edge technology built on years of domination in world motorsports and are engineered for easy bolt-on installation. Wilwood's Pro-Series Brake Kits are designed to meet the high performance demands of today's tire, wheel and suspension technology.
