

FOR IMMEDIATE RELEASE:

Wilwood Announces New Forged Superlite 4R / 6R Radial Mount Calipers

Camarillo, CA • June, 2014

Wilwood Superlite (FSLR) radial mount calipers combine state-of-the-art forged caliper technology, with track proven performance options for oval track, off-road, road course competition as well as high performance street applications. This new FSLR caliper group utilizes 20mm thick type 7420 pads in a multitude of 4 and 6 piston combinations covering the full range of popular front and rear brake applications. Base model calipers include stainless steel pistons and a black anodized finish. Calipers such as the Quick-Silver S/T model, feature nickel based plating and Thermlock pistons to provide the highest degree of durability with maximum heat control in extreme competition.

Wilwood has been expertly designing and manufacturing high-performance disc brakes in the USA since 1977. Engineered and rigorously tested for the track, Wilwood brake components provide unsurpassed quality and performance with sleek, lightweight designs. Wilwood has dominated the motorsports arena for decades, making their street market brakes among the most technologically advanced around.
