

FOR IMMEDIATE RELEASE:

Wilwood Disc Brakes Releases New DOT 5.1 Rated Hi-Temp 570 Brake Fluid

Camarillo, CA • December 2021

Wilwood Hi-Temp 570 racing brake fluid has been a staple of circle track, road racing, and autocross markets for decades. The newly released DOT 5.1 rated formula is even better.

The new lower viscosity fluid was specifically formulated to allow modern ABS, stability control, and brake-based limited-slip systems to react faster. The DOT 5.1 rated formula retains the 570° Fahrenheit dry boiling point and other features of the previous DOT 3 fluid. It continues to be highly resistant to aeration and foaming for an improved pedal feel, lap after lap. For racers and cars without ABS, the new lower viscosity also makes bleeding and flushing your brakes quicker and easier, getting you back behind the wheel faster. **DO NOT USE WHERE SILICONE DOT 5 FLUID IS SPECIFIED.**

MSRP: starts at \$15.42
